

How to fill XL size brother refillable cartridge

1. Fill the ink use pin head ink bottle or using syringe inject the ink from the refill hole, showed on picture.

2., put the cartridge into printer one by one follow the instruction on your printer screen, when your printer remind you close door, please put some paper clip to the sensor hole to active it. Different model printer, the hole might in different place, but the way to same, the printer on this instruction, the sensor is in the middle of the circle show on the last picture

Note:

Brother inkjet printer don't have chips, so you don't need reset the cartridge like the other brand printers, but don't forget refill the ink when it needs
