

## How to refill the canon refillable cartridge

1. Take the yellow sticker off.
2. Take the refill plug off; Fill the ink from the refill hole use syringe and needle, until the ink full on ink camber and sponge, then put the refill plug back on.
3. Take the orange cover off.
4. Put the cartridge into printer.

5. When you need refill the ink, just take the cartridge out of printer, then put the orange cover back on, and repeat it from 2-4. Or you can put just refill ink while the cartridge in the printer, but you need fill the ink very slowly to prevent the ink come out from the refill hole.
